Provincial
Secretary for
Resources
Development

Parliament Buildings
Queen's Park
Toronto Ontario

April 1, 1977

As Provincial Secretary of the Cabinet Committee to which the interministerial Tourism and Outdoor Recreation Planning Study Committee reports, it is my pleasure to make available the series of final reports derived from the Ontario Recreation Survey.

The Ontario Recreation Survey has been a project of the interministerial Tourism and Outdoor Recreation Planning Study (TORPS) Committee, a committee made up of representatives from the ministries of the Ontario Government which play a major role in the provision of recreation and tourism opportunities in Ontario.

Several years ago, in recognition of the need for a comprehensive data base on the recreation and tourism behaviour of Ontario residents, the TORPS Committee initiated the process which resulted in the designing, conducting, analysing, and reporting of results from the Ontario Recreation Survey.

The reports included in this series are based on a data bank containing the results of over 10,000 scientifically conducted personal interviews of a carefully selected group of Ontario residents during the period May 1, 1973 to April 30, 1974.

The primary purpose of the Survey was to provide comprehensive, valid information on recreation and tourism participation patterns and preferences and to gain a better insight into various aspects of recreation behaviour of Ontario residents.

The need for such information was earlier identified by the TORPS Committee as being essential if comprehensive recreation and tourism planning was to occur at any or all of the provincial, regional, or local levels.

It is my sincere hope that recreation and tourism planners and managers at all levels of government and also the private sector, as well as academics, will find these published results of value to them. I strongly urge that they will make full use of the reports and the data upon which they were based. When this is done, I anticipate with confidence that recreation and tourism planning, management, and research in the province will be carried out at a quality and level of understanding unequalled in Canada.

Sincerely,

Rene Brunelle
Minister

INTRODUCTION

1. GENERAL

This is the seventh in a series of reports describing results from the Ontario Recreation Survey (ORS). The main objectives of the actual survey are to obtain estimates of the incidence, frequency, and location of participation, and to provide estimates related to the travel mode, accommodation type, and destinations of the weekend and vacation trips of Ontario residents. Considerable information about the use of free time, preferences and constraints, and demographics, is also available to provide a complete context for the interpretation of activity and trip data.

The four primary purposes for which the data were collected are:

- (a) to aid government ministries in developing plans and policies for efficiently providing recreational opportunities that will maximize user satisfaction;
- (b) to provide the integrated data base required for the detailed analysis necessary to gain a better understanding of the complexities of tourism and recreation behaviour;
- (c) to provide a basis for the comparison and validation of results from existing surveys;
- (d) to provide data necessary for the development of models of tourism and recreational behaviour that can be used to evaluate alternative strategies for providing recreational opportunities.

The ORS is perhaps the most comprehensive tourism and recreation survey yet carried out in North America. In total, 10,230 residents

each completed a twenty-four page questionnaire which dealt with 73 recreational activities. Over 97 per cent of Ontario residents twelve years of age and older were eligible to be interviewed in any of the twelve months from May 1973 to April 1974.

The Ontario residents interviewed were selected in a multi-stage, probability sampling design. As the first stage of stratification, the Province was divided into seven geographical areas. The second stage of stratification was based on degree of urbanization. At this stage, the five strata which included municipalities with populations both greater and less than 50,000 were further divided into large and non-large urban substrata. As a result, the sample included twelve strata.

Questionnaires were administered by thoroughly trained interviewers under the supervision of Market Facts of Canada Ltd. Very strict sampling procedures were followed throughout the survey. Interviewers were not allowed to substitute either households or respondents within households. Only one respondent per household was eligible to be interviewed and up to five separate attempts to contact the selected person were required. Such a procedure is costly, but it ensures the inclusion of highly active individuals who are, typically, the most difficult to contact.

The ORS was designed to take place over twelve consecutive months to provide an unbiased perspective of resident tourism and recreational behaviour - much of which is seasonal in nature. Detailed questions about participation in activities and descriptions of weekend and vacation trips were restricted to the three months prior to the day of the interview. Details about free-time use were asked only for the day before the interview.

Data from the survey have been carefully edited. The procedures

included two independent manual edits and one computerized edit. Interviews have been weighted to increase the accuracy of estimates. The weights adjust estimates for differences in the sampling rate among strata and household sizes; response rates among strata and months; and differences between the age and sex distributions of the sample and the Ontario population.

The serious user of data from the Ontario Recreation Survey will want a more complete description of the survey than the brief and highly generalized one that has been described above. Detailed background information is available from two documents. The Survey Specifications, Interviewer's Instruction Manual, List of Working Definitions and the Questionnaire are found in: ONTARIO RECREATION SURVEY - SURVEY DOCUMENTS, 1973, Tourism and Outdoor Recreation Planning Study, Queen's Park, Toronto. Specific uses for which the data were collected - the ORS Pilot Study; Sample Design and Estimation Procedures; Design, Content and Structure of ORS Questionnaire; and Verification and Editing of the ORS Data - are all described in: TOURISM AND RECREATIONAL BEHAVIOUR OF ONTARIO RESIDENTS - VOLUME 8: USER'S GUIDE TO ANALYSIS, Tourism and Outdoor Recreation Planning Study, 1977, Queen's Park, Toronto.

For a more complete description of other characteristics of tourism and recreational behaviour of Ontario residents other than profiles of recreationists, the reader should refer to the companion reports in this series. They are:

- (a) Tourism and Recreational Behaviour of Ontario Residents - Volume 1: GEOGRAPHIC DIMENSIONS
- (b) Tourism and Recreational Behaviour of Ontario Residents - Volume 2: DEMOGRAPHIC DIMENSIONS

- (c) Tourism and Recreational Behaviour of Ontario Residents -
Volume 3: TRAVEL AND TOURISM
- (d) Tourism and Recreational Behaviour of Ontario Residents -
Volume 4: FREE TIME
- (e) Tourism and Recreational Behaviour of Ontario Residents -
Volume 5: PREFERENCE AND CONSTRAINTS
- (f) Tourism and Recreational Behaviour of Ontario Residents -
Volume 6: SPECIAL GROUPS

2. PROFILE OF PARTICIPANTS

This report profiles Ontario recreationists who participated in the 73 recreational activities surveyed in the Ontario Recreation Survey. The report is divided into two chapters: these are, An Overview - 73 Recreational Activities and Profiles of Participants.

Chapter I consists of four tables that detail rank orders of the activities based on the decreasing values of the following indices;

- (1) Participation Rate
- (2) Male/Female Participation
- (3) Average Age of Participants
- (4) Average Household Income of Participants

Chapter II presents the profiles of recreationists participating in the 73 recreational activities. Each profile depicts distributional information for the following variables;

- (a) Male/Female
- (b) Marital Status
- (c) Age
- (d) Education
- (e) Household Income
- (f) Employment Status

In order to determine how the composition of an activity differs from the composition of the sample as a whole, the activity in question should be compared with the composition of the total sample found in Appendix A.

For example, the first profile deals with alley bowlers. Of the 19 per cent who said they participated in alley bowling, 51 per cent are married and 49 per cent are single. Looking in Appendix A, it can be seen that in the population, 63 per cent are married and 30 per cent are single. By comparing those two profiles it can be concluded that alley bowling appeals more to the single than to the married.

It should be pointed out that where the rate of participation is low, caution should be applied in drawing statistical inferences. As a matter of fact, in order to avoid possible erroneous inferences, all profile tables relating to activities with less than 2 per cent participation rates have been excluded. The sample size is simply too small for reliable demographic inferences to be made.

This report supercedes a previous report* published in 1975. The latter report presented information based on one half of the total sample and displayed the profile information for only forty-six activities.

* Recreation Patterns in Ontario: A Statistical Profile,
Murray Yewer, Michael Heit,
Ministry of Culture and Recreation, 1975.

CHAPTER I
AN OVERVIEW - 73 RECREATIONAL ACTIVITIES

This chapter consists of the following four tables:

Table I-1 presents a rank of the 73 activities according to their popularity or rate of participation*. As can be seen from Table I-1, swimming has the highest participation rate with approximately 66 per cent of the total sample participating. The least popular activity** is fencing with a participation rate of 0.1 per cent.

Table I-2 presents a rank of the 73 activities according to Male/Female participation. The most male dominated activity is waterfowl hunting with almost 94 per cent of the participants being male. Equestrian sports have the highest rate of female participation. Note: Caution should be used in interpreting this table. Even though the Male/Female participation rate is high, the actual activity may be based on less than 2 per cent of the sample and each activity should be referenced to the corresponding participation rates in Table I-1.

* The term "participation rate", found throughout this report is defined as, the per cent of respondents who participated at least once in a given recreational activity in the past year.

** Due to the extremely small sample size, these numbers should be interpreted with caution.

Table I-3 presents a rank of the activities according to the average age of the participants. As might be expected, the average age is highest for lawn bowlers with field hockey being dominated by the younger generation; the average age for that activity being 16.7 years.

Table I-4 presents a rank of the activities according to the average annual gross household income of the participants. The household income is highest for squash players (\$16,000) and lowest for boxers/wrestlers (\$9,047).

TABLE I-1

PARTICIPATION RATES FOR 73 RECREATIONAL ACTIVITIES

Rank	Activity	Number [†]	%
1	Swimming	4,070,000	66.2
2	Recreational Driving	3,969,000	64.6

APPENDIX B
DEFINITIONS USED IN ONTARIO RECREATION SURVEY

1. STRATA*

For the purposes of the ONTARIO RECREATION SURVEY, the Province was divided into twelve strata, as follows:

OTTAWA
(Large Urban)

City of Ottawa

ST. LAWRENCE AREA
(Non-large Urban)

Counties of - Glengarry, Stormont, Dundas, Leeds, Grenville, Lanark, Prescott, Russell, and Regional Municipality of Ottawa-Carleton

KINGSTON-PETERBOROUGH
(Large Urban)

Cities of Kingston and Peterborough

EAST LAKE ONTARIO
(Non-large Urban)

Counties of - Renfrew, Frontenac, Lennox and Addington, Hastings, Peterborough, Northumberland, and Prince Edward

WESTERN LAKE ONTARIO
(Large Urban)

Cities of - Mississauga, Burlington, Oakville, Guelph, Hamilton, Niagara Falls, St. Catharines, and Oshawa

WESTERN LAKE ONTARIO
(Non-large Urban)

Durham, Peel, Halton, Wentworth, Ontario (Townships of Brock, Scott, Reach, Uxbridge, East Whitchurch, Pickering, Scugog), Wellington (Townships of Nichol, Pilkington, West Garafraxa, Guelph, Puslinch, Eramosa, Erin), and Regional Municipalities of Niagara and York

METROPOLITAN TORONTO
(Large Urban)

Boroughs of Etobicoke, Scarborough, York, East York, North York and City of Toronto

* Name of Cities, Counties and Townships refer to boundaries that existed May 1, 1973.

SOUTH-WESTERN ONTARIO
(Large Urban)

Cities of - Windsor, Sarnia,
London, Kitchener-Waterloo, and
Brantford

SOUTH-WESTERN ONTARIO
(Non-large Urban)

Counties of - Essex, Kent, Lambton,
Elgin, Middlesex, Huron, Perth,
Oxford, Norfolk, Waterloo, Brant,
and Haldimand

GEORGIAN BAY AREA
(Non-large Urban)

Counties of - Bruce, Grey, Dufferin,
Simcoe, Victoria, Haliburton,
Parry Sound, Ontario (Townships of
Rama, Mara, Thorah), Wellington
(Townships of Minto, Arthur,
West Luther, Maryborough, Peel),
Regional Municipality of Muskoka,
District of Nipissing (Townships of
Airy, East Ferris, West Ferris, Bonfield,
Calvin, Papineau, Chisholm and
Improvement District of Cameron)

NORTHERN ONTARIO
(Large Urban)

Cities of - Sault Ste. Marie,
Sudbury, Thunder Bay, North Bay

NORTHERN ONTARIO
(Non-large Urban)

District of - Algoma, Cochrane,
Kenora, Rainy River, Sudbury,
Thunder Bay, Timiskaming, Manitoulin,
Nipissing (Townships of Caldwell,
Field, Mattawan, Widdifield,
Springer and Improvement District
of Temagami)

2. RECREATIONAL ACTIVITIES

Participation in any of the following recreational activities done primarily for remuneration is excluded. Participation by students as part of a formal curriculum is also excluded.

SWIMMING

Participation in the act of swimming and/or wading. The water must be entered before this activity can occur.

RECREATIONAL BOATING*

The act of travelling over water by boat for recreational purposes other than fishing or water-skiing. Sub-activities include:

- a. Motor boating
- b. Canoeing
- c. Sailing
- d. Other boating (including kayaking and rowboating).

FISHING

The act of pursuing any legal game fish (on a non-commercial basis) with the anticipation of catching it.

WATER-SKIING

The act of being towed or towing a water-skier with the anticipation of being towed over a water surface by means of a power vehicle.

PICNICKING

The act of having a planned outdoor meal away from one's residence (temporary or permanent). Picnicking only occurs when a major purpose of the outing is to eat. It does not include eating while at a campsite. Neither does it include the case where a person while fishing, etc., eats out of doors unless that eating was the major purpose for the outing.

HUNTING

The act of pursuing any legal game bird or animal with the anticipation of bagging it. Hunting includes:

- a. Big game hunting - the hunting of moose, deer, black bear
- b. Small game hunting - the hunting of rabbit, hare, ptarmigan, pheasant, grouse, bobwhite, woodcock, raccoon, squirrel, ground hog, fox, crow

*

Recreational purposes are not associated with work, school or shopping. Shopping includes both shopping for goods and services.

- c. Water fowl hunting - the hunting of ducks, geese, coots, rails, and gallinules.

SNOWSHOEING/CROSS-COUNTRY SKIING

The act of travelling for recreational* purposes across a snow and/or ice covered surface by means of:

- a. Snowshoes
- b. Cross-country skis.

DOWNHILL SKIING

The act of sliding down a snow or ice covered slope by means of "downhill skis".

RECREATIONAL DRIVING*

The act of travelling by motor vehicle (car or truck) in which the major purpose is to view natural (non-urban) landscape from a motor vehicle and not to get to or from school, work, or shopping.

RECREATIONAL CYCLING*

The act of travelling for recreational purposes on a:

- a. Bicycle
- b. Motorcycle
- c. Trail-bike.

RECREATIONAL SNOWMOBILING*

The act of travelling for recreational purposes on a snowmobile.

HIKING

The recreational act of travelling on foot for a considerable distance, usually through uneven countryside. Considerable physical exercise is associated with this activity.

RECREATIONAL WALKING*

The act of walking for recreational purposes other than hiking. Recreational walking as opposed to hiking is less strenuous and occurs on even surfaces or terrain.

*

Recreational purposes are not associated with work, school or shopping. Shopping includes both shopping for goods and services.

ORGANIZED NATURE APPRECIATION

The act of:

- a. Visiting a zoo or botanical garden
- b. Visiting other nature displays or exhibits in parks (other than zoo or botanical gardens).
- c. Going on a guided nature tour.

PERSONAL NATURE APPRECIATION

The act of:

- a. Viewing or photographing species of birds, animals, insects or fish in their natural surroundings that is not done on guided tours.
- b. Viewing, photographing, sketching, painting or collecting species of plants in their natural surroundings that is not done on guided tours.
- c. Viewing, photographing, sketching, painting or collecting types of rocks in their natural surroundings that is not done on guided tours (rock collecting and carving is included here).

VISITING DEVELOPED HISTORIC SITES OR DISPLAYS

The act of attending an area containing original buildings, restorations or monuments of historical significance.

VISITING MUSEUMS OR ART GALLERIES

The act of visiting a building to observe artifacts (costumes, uniforms, historical books), natural historical displays of man and his culture both past and present, paintings, or sculptures. This may or may not include guided tours of the displays.

ATTENDING SPORTING EVENTS AS A SPECTATOR

The act of watching others participating in a sport requiring a recognized playing facility (an area designated and designed for playing a particular sporting event).

ATTENDING LIVE THEATRE OR
MUSICAL PERFORMANCES

The act of visiting a designated
place to see and/or hear live actors
and/or musicians perform.

ATTENDING ANNUALLY
SCHEDULED FAIRS,
EXHIBITIONS, SPORTSMEN
SHOWS, FESTIVALS, OR
SIMILAR SPECIAL EVENTS

The type of event must be specified.

VISITING A PRIVATE
NON-COMMERCIAL COTTAGE,
CHALET, OR OTHER FORM OF
SEASONAL RESIDENCE

CAMPING

Sleeping overnight away from home
in either a tent, tent trailer,
travel trailer, pickup camper (camper
back) or van.

Other Recreational Activities

GOLFING
(Does not include
driving ranges or
miniature golf)

TENNIS

HORSEBACK RIDING

SKIN OR SCUBA
DIVING

ICE SKATING

TOBOGGANING OR
SLEDDING

CURLING
